U. S. WAR BRIDES SWAMP PARIS PASSPORT OFFICES

Embassy Working Day and Night
Providing Credentials for Soldiers' Wives.

PARIS, June 15 (Correspondence of Associated Press).—Passport officers at the American Embassy are working day and night providing papers for the French brides of American soldiers who are about to leave for the United States.

In the daily queue at the Embassy are French girls from nearly all the provinces. There are large girls and small girls, beautiful girls and plain girls, simple country girls, unassuming and girls in the rakish hats and short skirts of the Paris boulevards.

One young sergeant from Wheeling, W. Va., demanded haste when applied for a passport for his bride. "You see my wife's under age," he explained, "and her mother changed her mind three times before she let us get married. We got married last week all right, but that old lady is so changeable I'm afraid to start home until I've seen this girl on a transport. That mother-in-law of mine isn't very keen about having her daughter go to America."

To Meet to Increase Capital.
A special meeting of the stockholders of the Kelly-Springfield Tire Company will be held July 11 to act upon the increase in the capitalization from \$15,000,000 to \$20,000,000, recently recommended by the directors.

No. 555—Sugar Bowl and Cream Pitcher, Price \$2.50.

PRESENTS

If the gift comes from Ovington's the bride will be pleased—for brides, like the rest of humanity, appreciate the taste, charm and usefulness of an Ovington gift.

STRIKE MAY LEAD TO FAMINE PRICES; WASTE ENORMOUS

Inactivity of State and City
Commissioners in Crisis
Arouses Complaint.

By P. Q. Foy.
(Special Food Expert of The Evening World.)

Forecasts regarding food prices at this time are beyond the pale even of conjecture, because of the enormous wastage occasioned by the strike against the large receivers of perishable goods. Great quantities of foodstuffs, the value of which cannot be estimated, are decaying. Shipments of produce have been ordered returned to the Jersey City terminals. It appears that the amount of food wasted will cause an enormous shortage in the immediate future with a return of possibly famine prices before conditions return to normal.

Two departments are maintained by the State and city to act in just such crises as the present. They are the Department of Food and Markets, in charge of Dr. Eugene F. Porter of Albany, and the City Commissioner of Markets, Mr. Jonathan C. Day. Neither of these departments up to the present time, as far as is known, has taken any action in the present crisis tending to bring the employers and the men together, or to pursue other methods to assure

the people of the city and State an uninterrupted market for perishable foodstuffs.

**SHORTAGE OF SUGAR PRE-
DICTED SOON.**

It will be remembered, in connection with the present situation, that a strike by the express wagon drivers and freight hands, called May 6 and continuing eight days, cost producers, merchants and consumers more than \$20,000,000. As in that case, so at present produce is rotting on the docks, and freight originally destined for New York is being diverted to other markets.

Creamy butter and eggs have continued reasonably cheap. Cheese is lower in price. A shortage of sugar is impending, and women who intend to put up any fruits or vegetables should make prompt arrangements for supplies.

Prof. Weld of the economic department of Swift & Co. of Chicago called at the office of The Evening World and assured the writer that Swift & Co. is not in any way connected with the other large packers in manipulating the market on meats or other products. He said the policy of Swift & Co. is to buy live cattle as low as possible and sell the dressed product at the highest price it can get.

Mr. Weld said his firm has lost heavily since the beginning of 1919. He also admitted that the company from beef last winter, as related in The Evening World, but only for the purpose of salvaging as much as possible out of high-priced cattle.

**IOWA FARMERS REPORT RE-
DUCED PRICES.**

A banker of Charlotte, Ia., heavily interested in the live stock business throughout the State, in a letter, says the price paid for the finest corned steers from Iowa on the Chicago market by the packers during the last ninety days, has shown a loss to the farmers and feeders of approximately \$75 per head.

Regardless of the fact that the packers have been buying the fancy corned cattle of all sorts and descriptions in the Chicago market at prices fully 30 per cent. to 40 per cent. lower than they were previous to April 1, the retail butchers in Greater New York on this top fancy beef have not lowered their price, in many instances, more than 5 per

cent. to 10 per cent. from the extreme prices which they were charging previous to April 1.

It was the short shipping of this market by the beef packers and the placing and holding in cold storage regardless of the enormous amount already in cold storage, that has made it possible for them to extort exorbitant prices from the retail butchers, and the retail butchers, in turn, from the public during this period of enormous supply and limited demand, when prices should have dropped to a point where the finest cuts of beefsteak and roast beef should have been lowered to the consumer at least 35 per cent. below the prices which are now being charged. If they were to have been on the level which the most packers paid the Iowa farmers for their fancy corned beef cattle.

PUBLIC INSISTED ON LOWER PRICES.

Had it not been for The Evening World's campaign of publicity, which has saved millions of dollars to the consumers of Greater New York, the price would not have been lowered at all by the retail butchers. With the facts in hand, and with the assistance of the consumers, who must on their part constantly demand from their retail butchers fair prices, there can be no question but the packers
